

Manuscript no. HAEMATOL/2011/057323 entitled “Clinical evaluation of extra-hematologic comorbidity in myelodysplastic syndromes: ready-to-wear versus made-to-measure tool”

Authors: Matteo G. Della Porta, Ilaria Ambaglio, Marta Ubezio, Erica Travaglino, Cristiana Pascutto, and Luca Malcovati

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Matteo G Della Porta, MD, Department of Hematology Oncology, University of Pavia Medical School, Fondazione IRCCS Policlinico San Matteo, 27100 Pavia, Italy. Phone: international +39.0382.503062. Fax: international +39.0382.502250. E-mail: matteo@haematologica.org

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Matteo G. Della Porta and Luca Malcovati

3) Design & Methods. The following authors were responsible for specific investigations:
• Matteo G. Della Porta and Luca Malcovati were responsible for study design
• Ilaria Ambaglio, Marta Ubezio and Erica Travaglino were responsible for clinical data collection
• Matteo G. Della Porta, Cristiana Pascutto and Luca Malcovati were responsible for statistical analysis

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):
• Matteo G. Della Porta, Cristiana Pascutto and Luca Malcovati were responsible for Figure 1 and for results of statistical analyses

5) Writing the manuscript. The following authors were responsible for writing the manuscript:
• Matteo G. Della Porta, Cristiana Pascutto and Luca Malcovati were responsible for writing the manuscript

6) Contributors Listed in Acknowledgments: none
