

Manuscript no. HAEMATOL/2011/054858 entitled “The role of endocytic pathways in cellular uptake of plasma non-transferrin iron”

Authors: Yang-Sung Sohn, Hussam Ghoti, William Breuer, Eliezer Rachmilewitz, Samah Attar³, Guenter Weiss, and Z. Ioav Cabantchik

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Zvi Ioav Cabantchik, Department of Biological Chemistry, The Alexander Silberman Institute of Life Sciences, Hebrew University of Jerusalem, Israel; ioav@cc.huji.ac.il

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Yang-Sung Sohn, William Breuer, Z. Ioav Cabantchik, Hussam Ghoti, Eliezer Rachmilewitz, Guenter Weiss

3) Design & Methods. The following authors were responsible for specific investigations (please detail):

- Yang-Sung Sohn, W. Breuer, G. Weiss and Z.I. Cabantchik were responsible for all the experimental design and methodologies of the study
- Hussam Ghoti, Samar Attar and E Rachmilewitz were responsible for the clinical design

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Yang-Sung Sohn and W. Breuer were responsible for all the experimental data shown
- G. Weiss and Z.I. Cabantchik were responsible for analytical aspects

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Yang-Sung Sohn, W. Breuer, G. Weiss and Z.I. Cabantchik were responsible for the writing of all the experimental aspects of the study.
- Hussam Ghoti, Samar Attar and E Rachmilewitz were responsible for the writing of all the clinical aspects of the study

6) Contributors Listed in Acknowledgments:

Ms. Hava Glickstein assisted in the maintenance of tissue cultures. Supported by the Israel Science Foundation (141/06) and the Canadian Friends of the Hebrew University, that supported the entire study by grants to ZIC.
