

**Manuscript no. HAEMATOL/2011/054577 entitled “Effectiveness of subcutaneous low-dose alemtuzumab and rituximab combination therapy for steroid-resistant chronic graft-versus-host disease”**

**Authors: Cesar Homero Gutiérrez-Aguirre, Olga Graciela Cantú-Rodríguez, Omar David Borjas-Almaguer, Oscar González-Llano, José Carlos Jaime-Pérez, Manuel Solano-Genesta, Miguel Gómez-Guijosa, Consuelo Mancias-Guerra, Luz Tarín, and David Gomez-Almaguer**

**Information about the contributions of each person named as having participated in the study**

- 1) Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
- Cesar Homero Gutiérrez-Aguirre, Hospital Universitario UANL, hematohu@yahoo.com
  - David Gómez-Almaguer, Hospital Universitario UANL, dr\_gomez@infosel.net.mx

According to the International Committee of Medical Journal Editors (ICMJE) ([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 ..... Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

**2) Authors who participated in the conception of the study:** Cesar Homero Gutiérrez-Aguirre, David Gómez-Almaguer

**3) Design & Methods.** The following authors were responsible for specific investigations (please detail):

- David Gómez-Almaguer, was responsible for designing and writing the protocol
- José Carlos Jaime-Pérez, was responsible for designing and writing the protocol
- Cesar Homero Gutiérrez-Aguirre, was responsible for patients attention and follow-up
- Omar David Borjas-Almaguer, was responsible for study drug administration
- Olga Graciela Cantú-Rodríguez, was responsible for patients attention
- Manuel Solano-Genesta, was responsible for patients recruitment and study drug administration
- Miguel Gómez-Guijosa was responsible for reviewing the response to treatment

**4) Results.** The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Oscar González-Llano, was responsible for data analysis and table 1
- Consuelo Mancias-Guerra, was responsible for data analysis, figure 1 and table 2
- Luz Tarin, was responsible for data analysis and table of supplementary appendix

**5) Writing the manuscript.** The following authors were responsible for writing the manuscript:

- Cesar Homero Gutiérrez-Aguirre was responsible for writing the manuscript
- David Gómez-Almaguer was responsible for writing the manuscript

**6) Contributors Listed in Acknowledgments:**

Thanks to the nursing staff and laboratory staff of the Hematology Service of the Hospital Universitario for the excellent support in the care of patients in the study.
