

Manuscript no. HAEMATOL/2011/060111 entitled “Different boundaries characterize isolated and non-isolated 5q deletions in myelodysplastic syndromes and acute myeloid leukemias”

Authors: Valeria Nofrini, Roberta La Starza, Barbara Crescenzi, Valentina Pierini, Gianluca Barba, Cristina Mecucci

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Cristina Mecucci

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Cristina Mecucci

3) Design & Methods. The following authors were responsible for specific investigations (please detail):

- Valeria Nofrini, Roberta La Starza, Barbara Crescenzi and Valentina Pierini were responsible for FISH studies
- Gianluca Barba was responsible for SNP-aCGH studies
- Cristina Mecucci supervised all the investigations

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Valeria Nofrini, Roberta La Starza, Barbara Crescenzi, Valentina Pierini were responsible for FISH results and for Figure 1
- Gianluca Barba was responsible for SNP-aCGH studies and for Figure 1
- Valentina Pierini was responsible for Table 1
- Cristina Mecucci revised all experimental results and was responsible for Figure 1 and Table 1

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Valeria Nofrini, Roberta La Starza and Cristina Mecucci were responsible for writing the manuscript

6) Contributors Listed in Acknowledgments:

The authors wish to thank Dr Geraldine Boyd for her assistance in the preparation of the manuscript. This study was partly supported by AIRC (Associazione Italiana Ricerca sul Cancro), IG-11512; MIUR (Ministero per l'Istruzione, l'Università e la Ricerca Scientifica); Fondazione Cassa di Risparmio, Perugia (Grant n. 2011.0159.021); AULL (Associazione Umbra per la lotta contro le leucemie), Perugia; IAP (Interuniversity Attraction Poles, University of Leuven), Belgium, “Associazione Sergio Luciani”, Fabriano; Ricerca finalizzata 2008, regione Umbria, Italy. RP11 clones belong to the Roswell Park Cancer Institute libraries (<http://www.chori.org/BACPAC>) and were kindly provided by Dr Mariano Rocchi (DAPEG, University of Bari, Italy).
