

Manuscript no. HAEMATOL/2011/061630 entitled “Comment on “Second-generation tyrosine kinase inhibitors improve the survival of patients with chronic myeloid leukemia in whom imatinib therapy has failed” by Ibrahim et al.”

Authors: Michael Lauseker, Markus Pfirrmann, Verena S. Hoffmann, and Joerg Hasford

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Michael Lauseker, Institut für medizinische Informationsverarbeitung, Biometrie und Epidemiologie, Ludwig-Maximilians-Universität, München, Germany, lauseker@ibe.med.uni-muenchen.de

- Markus Pfirrmann, Institut für medizinische Informationsverarbeitung, Biometrie und Epidemiologie, Ludwig-Maximilians-Universität, München, Germany, pfi@ibe.med.uni-muenchen.de

- Verena S. Hoffmann, Institut für medizinische Informationsverarbeitung, Biometrie und Epidemiologie, Ludwig-Maximilians-Universität, München, Germany, hoffmann@ibe.med.uni-muenchen.de

- Joerg Hasford, Institut für medizinische Informationsverarbeitung, Biometrie und Epidemiologie, Ludwig-Maximilians-Universität, München, Germany, has@ibe.med.uni-muenchen.de

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.*

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the **conception of the study**: not applicable

3) **Design & Methods**. The following authors were responsible for specific investigations: not applicable

4) **Results**. The following authors were responsible for specific portions of the results, including figures and tables: not applicable

5) **Writing the manuscript**. The following authors were responsible for writing the manuscript:

- All authors wrote the manuscript

6) **Contributors Listed in Acknowledgments**: None
