

Manuscript no. HAEMATOL/2011/056457 entitled “Chronic phase chronic myeloid leukemia patients with low OCT-1 activity randomised to high-dose imatinib achieve better responses, and lower failure rates, than those randomized to standard-dose “

Authors Deborah L. White, Jerry Radich, Simona Soverini, Verity A. Saunders, Amity Frede, Phuong Dang, Daniela Cilloni, Peter Lin, Lidia Mongay, Richard Woodman, Paul Manley, Cassandra Slader, Dong-Wook Kim, Fabrizio Pane, Giovanni Martinelli, Giuseppe Saglio, and Timothy P. Hughes

Information about the contributions of each person named as having participated in the study

- 1) **Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
- Deborah L. White; University of Adelaide - Faculty of Health Science, Department of Haematology, SA Pathology (RHA Campus) - Centre for cancer Biology, Adelaide, Australia.
 - Timothy P. Hughes; University of Adelaide - Faculty of Health Science, Department of Haematology, SA Pathology (RHA Campus) - Centre for cancer Biology, Adelaide, Australia.

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.*

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) **Authors who participated in the conception of the study:** Deborah L. White, Timothy P. Hughes, Jerry Radich, Cassandra Slader, Dong-Wook Kim, Fabrizio Pane, Giovanni Martinelli, Giuseppe Saglio

- 3) **Design & Methods.** The following authors were responsible for specific investigations:
- Deborah L. White performed research, contributed to the concept and design of the study, analyzed data and wrote manuscript.
 - Jerry Radich participated the concept and design of the study, manuscript preparation and approved final manuscript.
 - Simona Soverini and Daniela Cilloni assisted with collection and assembly of data, manuscript preparation and approved final manuscript
 - Verity A. Saunders and Amity Frede performed research assisted with collection and assembly of data manuscript preparation and approved final manuscript
 - Peter Lin assisted with collection and assembly of data, performed statistical analyses and approved final version of the manuscript
 - Lydia Mongay, Paul Manley and Richard Woodman contributed to the concept and design of the TOPS study, contributed to manuscript preparation and approved final manuscript.
 - Cassandra Slader, Fabrizio Pane, Giovanni Martinelli and Giuseppe Saglio contributed to the concept and design of the study, contributed to manuscript preparation and approved final manuscript.
 - Timothy P. Hughes designed research and contributed to the concept and design of the study, contributed significantly to manuscript preparation and approved final manuscript.

4) **Results.** The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- The results were generated by those authors indicated in the above list
- Deborah L. White was responsible for all of the figures and tables as first author

5) **Writing the manuscript.** The following authors were responsible for writing the manuscript:

- Deborah L. White was responsible for writing the manuscript.

6) **Contributors Listed in Acknowledgments:** -
