

Manuscript no. HAEMATOL/2011/055343 entitled "Characterization of thrombin generation potential of leukemic and solid tumor cells by the calibrated automated thrombography"

Authors: Marina Marchetti, Erika Diani, Hugo Ten Cate, and Anna Falanga
Information about the contributions of each person named as having participated in the study

1) **Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Anna Falanga, Division of Immunohematology and Transfusion Medicine, Ospedali Riuniti di Bergamo, Bergamo, Italy, annafalanga@yahoo.com

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) **Authors who participated in the conception of the study:** Marina Marchetti, Erika Diani, Hugo Ten Cate, Anna Falanga

3) **Design & Methods.** The following authors were responsible for specific investigations (please detail):

- Marina Marchetti and Anna Falanga were responsible for the design of the project.
- Marina Marchetti and Erika Diani were responsible for the management of laboratory investigations.

4) **Results.** The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Marina Marchetti was responsible for the data analysis, interpretation of results and preparations of figures.
- Erika Diani was responsible for data analysis and preparations of figures.
- Anna Falanga and Hugo ten Cate were responsible for the data analysis and interpretation of the results.

5) **Writing the manuscript.** The following authors were responsible for writing the manuscript:

- All the authors were equally responsible for discussing the data and writing the manuscript.
- Anna Falanga was responsible for revising critically the manuscript.

6) **Contributors Listed in Acknowledgments:** -
