

Manuscript no. HAEMATOL 2001-048421 entitled “Multicenter validation of a reproducible flow cytometric score for the diagnosis of low-grade myelodysplastic syndromes: results of a European LeukemiaNET study”

Authors: Matteo G. Della Porta, Cristina Picone, Cristiana Pascutto, Luca Malcovati, Hideto Tamura, Hiroshi Handa, Magdalena Czader, Sylvie Freeman, Paresh Vyas, Anna Porwit, Leonie Saft, Theresia M. Westers, Canan Alhan, Claudia Cali, Arjan A. van de Loosdrecht, and Kiyoyuki Ogata.

Information about the contributions of each person named as having participated in the study

1) **Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Matteo Giovanni Della Porta, MD, Department of Hematology Oncology, University of Pavia Medical School Fondazione IRCCS Policlinico San Matteo, 27100 Pavia, Italy. Phone: international +39.0382.503062. Fax: international +39.0382.502250. E-mail:matteo@haematologica.org

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) **Authors who participated in the conception of the study:** Matteo G. Della Porta and Kiyoyuki Ogata

3) **Design & Methods.** The following authors were responsible for specific investigations:

- Matteo G. Della Porta and Kiyoyuki Ogata were responsible for design fo the study
- Cristiana Pascutto was responsible for statistical methods

4) **Results.** The following authors were responsible for specific portions of the results, including figures and tables

- Cristina Picone, Luca Malcovati, Hideto Tamura, Hiroshi Handa, Magdalena Czader, Sylvie Freeman, Paresh Vyas, Anna Porwit, Leonie Saft, Theresia M. Westers, Canan Alhan, Claudia Cali, Arjan A. van de Loosdrecht were responsible for collection of clinical and cytometric data.
- Cristiana Pascutto was responsible for statistical analysis
- Matteo Della Porta and Kiyoyuki Ogata were responsible for figures and tables

5) **Writing the manuscript.** The following authors were responsible for writing the manuscript:

- Matteo Della Porta and Kiyoyuki Ogata were responsible for writhing the manuscript

6) **Contributors Listed in Acknowledgments.**

Funding: this work was supported in part by grants from AIRC (Associazione Italiana per la Ricerca sul Cancro) and Regione Lombardia, Milan, Italy. In addition, this study was undertaken within European LeukemiaNET
