

**Manuscript no. HAEMATOL/2011/055871 entitled "Identification of a novel HLA-G+ regulatory population in blood: expansion after allogeneic transplantation and de novo HLA-G expression at GvHD sites"**

**Authors: Ioanna Lazana, Anastasia Zoudiari, Dimitra Kokkinou, Maria Themeli, Maria Liga, Helen Papadaki, Dionysios Papachristou, and Alexandros Spyridonidis**

**Information about the contributions of each person named as having participated in the study**

**1) Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:  
• Spyridonidis Alexandros, MD, PhD, University Hospital of Patras, Div. of Hematology, 26500 Rio / Patras; e-mail: [spyridonidis@upatras.gr](mailto:spyridonidis@upatras.gr), Tel: +30-2610-969110, Fax: +30-2610-993950

According to the International Committee of Medical Journal Editors (ICMJE) ([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 ..... Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the **conception of the study**: Spyridonidis Alexandros is the principal investigator, conceived the idea for the study, supervised and reviewed study designs, results and manuscript preparation.

3) **Design & Methods**. The following authors were responsible for specific investigations:

- Ioanna Lazana designed and conducted the experiments and prepared the manuscript
- Anastasia Zoudiari, Dimitra Kokkinou and Maria Themeli assisted with the experiments
- Maria Liga recruited patients

4) **Results**. The following authors were responsible for specific portions of the results, including figures and tables:

- Ioanna Lazana designed and conducted the experiments (all Figures, all Tables)
- Anastasia Zoudiari, Dimitra Kokkinou assisted with results Figure 1-4
- Maria Liga recruited patients and contributed to results Figure 4 and supplementary Table S2)
- Helen Papadaki and Dionysios Papachristou performed analysis and immunohistochemical data interpretation (Supplementary Figure S4, S5, supplementary Table S2)
- Alexandros Spyridonidis supervised results of all Figures and Tables

5) **Writing the manuscript**. The following authors were responsible for writing the manuscript:

- Ioanna Lazana prepared the manuscript
- Alexandros Spyridonidis prepared the manuscript
- All authors approved the final manuscript

6) **Contributors Listed in Acknowledgments**:

- G. Oikonomopoulou for excellent technical assistance
- N. Zoumbos for support and helpful discussions
- E. Kefala for her administrative assistance
- Nurses at the BMT Unit for the dedicated patient care
