

Manuscript no. HAEMATOL/2012/065730 entitled “Molecular characterization of identical, novel MLL-EPS15 translocation and individual genomic copy number alterations in monozygotic infant twins with acute lymphoblastic leukemia”

Authors: Rishi S Kotecha, Jette Ford, Alex H Beesley, Denise Anderson, Catherine H Cole, Ursula R Kees

Information about the contributions of each person named as having participated in the study

1) **Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Rishi S Kotecha, Princess Margaret Hospital for Children, GPO Box D184, Perth, Western Australia 6840, rishi_k28@hotmail.com

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the **conception of the study**: Rishi S Kotecha, Alex H Beesley, Catherine H Cole, Ursula R Kees

3) **Design & Methods**. The following authors were responsible for specific investigations (please detail):

- Rishi S Kotecha designed and performed experiments including primer design, reverse transcription, polymerase chain reaction and targeted sequencing
- Jette Ford performed experiments including RNA/DNA extraction and preparation for the whole-genome cytogenetic arrays

4) **Results**. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Rishi S Kotecha interpreted results of the sequences generated, whole-genome cytogenetic arrays and was responsible for all figures and tables
- Denise Anderson was responsible for biostatistical processing of the data received from the whole-genome cytogenetic arrays

5) **Writing the manuscript**. The following authors were responsible for writing the manuscript:

- Rishi S Kotecha, Alex H Beesley, Catherine H Cole and Ursula R Kees wrote the manuscript
- All authors edited and approved the manuscript

6) **Contributors Listed in Acknowledgments**:

Dr. Silvia Bungaro (provision of previously published data), Gillian Northcott (illustrative assistance)
