

Manuscript no HAEMATOL/2012/063701 entitled “An observational, prospective, two-cohort comparison of a fixed versus variable dosing strategy of Prothrombin Complex Concentrate to counteract Vitamin K Antagonists in 240 bleeding emergencies“

Authors: Nakisa Khorsand, Nic J.G.M. Veeger, Reinier M. van Hest, Paula F. Ypma, Jeroen Heidt, and Karina Meijer

Information about the contributions of each person named as having participated in the study

1) **Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Nakisa Khorsand, Haga Teaching Hospital, N.Khorsand@ahz.nl

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the **conception of the study**: Nakisa Khorsand, Nic J.G.M. Veeger, Paula F. Ypma, Karina Meijer

3) **Design & Methods**. The following authors were responsible for specific investigations (please detail):

• Nakisa Khorsand, Paula Ypma and Jeroen Heidt were responsible for collecting the data

4) **Results**. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

• Nakisa Khorsand and Nic Veeger were responsible for analyzing all data and for each figure and table.

5) **Writing the manuscript**. The following authors were responsible for writing the manuscript:

• Nakisa Khorsand, Nic J.G.M. Veeger, Reinier M. van Hest, Paula F. Ypma, Karina Meijer were responsible for writing and editing the manuscript.

6) **Contributors Listed in Acknowledgments**:

Professor Jan van der Meer MD PhD initiated this study. We regret that he suddenly passed away in 2009.

The funding and sponsorship for this study is partly provided by Sanquin BV (Amsterdam, The Netherlands). Sanquin had no involvement in the collection, analysis and interpretation of data; in the writing of the report; and in the decision to submit the paper for publication.
