

Manuscript no. HAEMATOL/2012/064121 entitled “Myelodysplasia-associated immunophenotypic alterations of bone marrow cells in myeloma: are they present at diagnosis or are they induced by lenalidomide? “

Authors: Sergio Matarraz, Bruno Paiva, María Díez-Campelo, Lucía-López Corral, Estefanía Pérez, María-Victoria Mateos, Pilar Giraldo, Miguel T. Hernández, Jesús F. San Miguel, Alberto Orfao on behalf of the GEM (Grupo Español de MM)/PETHEMA (Programa para el Estudio de la Terapéutica en Hemopatías Malignas) cooperative study groups

Information about the contributions of each person named as having participated in the study

- 1) **Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
- Sergio Matarraz; Servicio General de Citometría and Department of Medicine, Universidad de Salamanca. Salamanca; smats@usal.es
 - Bruno Paiva; Centro de Investigación del Cáncer (CIC, IBMCC USAL-CSIC) and Instituto de Investigación Biomédica de Salamanca (IBSAL), Salamanca; bpaiva@usal.es
 - Jesus F. San Miguel; Centro de Investigación del Cáncer (CIC, IBMCC USAL-CSIC) and Instituto de Investigación Biomédica de Salamanca (IBSAL), Salamanca; sanmigiz@usal.es
 - Alberto Orfao; Servicio General de Citometría and Department of Medicine, Universidad de Salamanca. Salamanca; orfao@usal.es

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the **conception of the study**: Sergio Matarraz, Bruno Paiva, María-Victoria Mateos, Jesus F San Miguel, Alberto Orfao

3) **Design & Methods**. The following authors were responsible for specific investigations (please detail):

- Sergio Matarraz, Bruno Paiva, Alberto Orfao were responsible for immunophenotypic studies
- María-Díez Campelo and Estefanía Pérez were responsible for morphological analyses
- Lucía-López Corral, María-Victoria Mateos, Pilar Giraldo, Miguel T. Hernández, Jesús F. San Miguel were responsible for patient enrollment, treatment, and collecting clinical data

4) **Results**. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Sergio Matarraz and Bruno Paiva were responsible for the results and tables

5) **Writing the manuscript**. The following authors were responsible for writing the manuscript:

- Sergio Matarraz, Bruno Paiva, Jesus F San Miguel, Alberto Orfao /were responsible for writing the manuscript

6) Contributors Listed in Acknowledgments: -
