

Manuscript no. HAEMATOLHAEMATOL/2011/056374 entitled "Treg depletion through CD127 positive selection results in a population enriched in memory T cells: implications for anti-tumoral cell therapy"

Authors: Soumia Touil, Michelle Rosenzweig, Dan Avi Landau, Philippe Le Corvoisier, Frederic Charlotte, David Klatzmann, Sebastien Maury, José L. Cohen

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Sébastien Maury, Université Paris Est Créteil, Faculté de Médecine, AP-HP GHU Henri Mondor,INSERM CIC-BT and U955 IMRB, Créteil France sebastien.maury@hmn.aphp.fr
- José L. Cohen, Université Paris Est Créteil, Faculté de Médecine, AP-HP GHU Henri Mondor,INSERM CIC-BT and U955 IMRB, Créteil France jose.cohen@inserm.fr
- David Klatzmann, UPMC Univ Paris O6 and CNRS UMR7211, INSERM U959, AP-HP Hôpital Pitié Salpêtrière, service de biothérapie, Paris France david.klatzmann@upmc.fr

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the **conception of the study**: Maury Sébastien, José L. Cohen, Philippe Le Corvoisier

3) **Design & Methods**. The following authors were responsible for specific investigations (please detail):

- Sébastien Maury, José L. Cohen and Soumia Touil were responsible for the design and methods of all experiments
- Michelle Rosenzweig was responsible for the design and methods of in vitro experiments

4) **Results**. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Sébastien Maury, José Cohen, Michelle Rosenzweig and Soumia Touil were responsible for fig 1,2,3 and 4
 - Sébastien Maury, José Cohen, Frédéric Charlotte and Soumia Touil were responsible for fig 5
- Dan Avi Landau and David Klatzmann analyzed all the data

5) **Writing the manuscript**. The following authors were responsible for writing the manuscript:

- Sébastien Maury, Dan A Landau and José Cohen wrote the paper

6) **Contributors Listed in Acknowledgments**:

Eliane Piaggio for critical reading of the manuscript

Pierric Parent, Yamina Hamel, Maude Guillot for technical support

Funding: APP recherche clinique translationnelle INSERM/DHOS/INCA and Agence de la Biomédecine. Soumia Touil was supported by a grant from the French government.
