

Manuscript no. HAEMATOL/2012/067306 entitled "Increased angiogenesis and enhanced bone formation in patients with IGM monoclonal gammopathy and urticarial skin rash: new insight into the biology of the Schnitzler syndrome"

Authors: Evangelos Terpos, Bouchra Asli, Dimitrios Christoulas, Jean-Claude Brouet, Efstathios Kastritis, Michel Rybojad, Djaouida Bengoufa, Meletios A. Dimopoulos and Jean Paul Femand

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Evangelos Terpos, Department of Clinical Therapeutics, University of Athens School of Medicine, Alexandra Hospital, email: eterpos@med.uoa.gr & eterpos@hotmail.com

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Evangelos Terpos

3) **Design & Methods.** The following authors were responsible for specific investigations:

- Evangelos Terpos was responsible for all laboratory parameters of the study.
- Meletios A. Dimopoulos, Jean Paul Femand, Evangelos Terpos, Bouchra Asli, Jean-Claude Brouet, Efstathios Kastritis and Michel Rybojad were responsible for followed up the patients.
- Jean Paul Femand, Bouchra Asli, Efstathios Kastritis, Dimitrios Christoulas, Djaouida Bengoufa, Jean-Claude Brouet, Michel Rybojad and Evangelos Terpos were responsible for data collection.
- Dimitrios Christoulas and Efstathios Kastritis were responsible for statistical analyses.

4) **Results.** The following authors were responsible for specific portions of the results, including figures and tables:

- Evangelos Terpos, Meletios A. Dimopoulos, Bouchra Asli, Efstathios Kastritis, and Jean Paul Femand were responsible for the interpretation of the data.
- Dimitrios Christoulas was responsible for the production of the figures of the paper.

5) **Writing the manuscript.**

- Evangelos Terpos wrote the paper.

6) **Contributors Listed in Acknowledgments:**

We would like to thank Mr Athanasios Papatheodorou who provided technical help. We declare that there was no assistance with the study design, data collection, data analysis, or manuscript preparation. There was also no financial and material support for this study.
