

Manuscript no. HAEMATOL/2012/065490 entitled “Predictors and short-term outcomes of hyperleukocytosis in children with acute myeloid leukemia: a report from the Children’s Oncology Group”

Authors: Lillian Sung, Richard Aplenc, Todd A. Alonzo, Robert B. Gerbing, Alan S. Gamis and the AAML0531/PHIS Group

Information about the contributions of each person named as having participated in the study

- 1) Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
- Lillian Sung, Department of Haematology/Oncology and Child Health Evaluative Sciences, The Hospital for Sick Children, Toronto, ON, lillian.sung@sickkids.ca
 - Richard Aplenc, Department of Pediatrics, Children’s Hospital of Philadelphia, Philadelphia, PA, raplenc@cceb.med.upenn.edu

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the **conception of the study**: Lillian Sung, Richard Aplenc, Todd A. Alonzo, Robert B. Gerbing, Alan S. Gamis and the AAML0531/PHIS Group all contributed to study conception.

3) **Design & Methods**. The following authors were responsible for specific investigations (please detail):

- Lillian Sung was responsible for study design and acquisition, analysis and interpretation of data
- Richard Aplenc was responsible for study design and acquisition, analysis and interpretation of data
- Todd A. Alonzo was responsible for acquisition and analysis of data
- Robert B. Gerbing was responsible for acquisition and analysis of data
- Alan S. Gamis was responsible for acquisition and analysis of data
- The AAML0531/PHIS Group was responsible for study design and acquisition of data

4) **Results**. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Lillian Sung was responsible for creation of Tables 1 and 2
- Richard Aplenc was responsible for creation of Tables 1 and 2

5) **Writing the manuscript**. The following authors were responsible for writing the manuscript:

- Lillian Sung contributed to writing the manuscript
- Richard Aplenc contributed to writing the manuscript
- Todd A. Alonzo contributed to writing the manuscript
- Robert B. Gerbing contributed to writing the manuscript
- Alan S. Gamis contributed to writing the manuscript
- The AAML0531/PHIS Group contributed to writing the manuscript

6) Contributors Listed in Acknowledgments:

The authors would like to thank Vani Shanker for editorial assistance.
