

**Manuscript no. HAEMATOL/2012/068429 entitled “Mutations in DNMT3A and loss of RKIP are independent events in acute monocytic leukemia“**

**Authors: Isabella Fried, Albert Wölfler, Franz Quehenberger, Gerald Hoefler, Heinz Sill, and Armin Zebisch**

**Information about the contributions of each person named as having participated in the study**

**1) Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:  
• Armin Zebisch, Division of Hematology, Medical University of Graz, Auenbruggerplatz 38, 8036 Graz, Austria. Tel: +43.316.385.80259; Fax: +43.316.385.14087; email: [armin.zebisch@medunigraz.at](mailto:armin.zebisch@medunigraz.at)

According to the International Committee of Medical Journal Editors (ICMJE) ([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 ..... Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

**2) Authors who participated in the conception of the study:** Isabella Fried, Heinz Sill, Armin Zebisch

**3) Design & Methods.** The following authors were responsible for specific investigations:  
• Isabella Fried, Albert Wölfler and Gerald Hoefler were responsible for mutational analysis by DNA sequencing.  
• Albert Wölfler, Heinz Sill and Armin Zebisch were responsible for the acquisition and analysis of clinical patient data.  
• Franz Quehenberger and Armin Zebisch were responsible for statistical analyses.

**4) Results.** The following authors were responsible for specific portions of the results, including figures and tables:

• Isabella Fried, Albert Wölfler and Armin Zebisch were responsible for Figure 1.  
• Isabella Fried, Albert Wölfler, Gerald Höfler, Franz Quehenberger and Armin Zebisch were responsible for Figure 2.

**5) Writing the manuscript.** The following authors were responsible for writing the manuscript:  
• Isabella Fried, Heinz Sill and Armin Zebisch were responsible for writing the manuscript. All authors contributed significantly to the writing and approved the final version of the manuscript.

**6) Contributors Listed in Acknowledgments:**

This study was supported by Leukämiehilfe Steiermark. Armin Zebisch was further supported by the START-Funding-Program of the Medical University of Graz, Graz, Austria.
