

**Manuscript no. HAEMATOL/2012/066407 entitled “Ponatinib as targeted therapy for FGFR1 fusions associated with the 8p11 myeloproliferative syndrome”**

**Authors: Andrew Chase, Catherine Bryant, Joanna Score and Nicholas C.P. Cross**

**Information about the contributions of each person named as having participated in the study**

**1) Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Andrew Chase, Wessex Regional Genetics Laboratory, Salisbury, UK and Faculty of Medicine, University of Southampton, UK, achase@soton.ac.uk
- Nicholas CP Cross, Wessex Regional Genetics Laboratory, Salisbury, UK and Faculty of Medicine, University of Southampton, UK, N.C.P.Cross@soton.ac.uk

According to the International Committee of Medical Journal Editors (ICMJE)

([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 ..... Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

**The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.**

**2) Authors who participated in the conception of the study:** Andrew Chase, Nicholas Cross

**3) Design & Methods.** The following authors were responsible for specific investigations (please detail):

- Nicholas Cross was responsible for sample acquisition and project overview.
- Andrew Chase was responsible for cell line and primary cell response assays, FGFR1 FISH, western blotting and project overview.
- Catherine Bryant was responsible for primary cell response assays and western blotting
- Joanna Score was responsible for FGFR1 FISH

**4) Results.** The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Andrew Chase was responsible for cell line and primary cell response assays, FGFR1 FISH, western blotting
- Catherine Bryant was responsible for primary cell response assays and western blotting
- Joanna Score was responsible for FGFR1 FISH
- Figure 1: Andrew Chase
- Figure 2: Andrew Chase and Catherine Bryant
- Figure 3: Andrew Chase and Joanna Score
- Table S1: Andrew Chase and Nicholas Cross
- Table S2: Andrew Chase and Catherine Bryant
- Table S3: Andrew Chase and Joanna Score

**5) Writing the manuscript.** The following authors were responsible for writing the manuscript:

- Andrew Chase wrote the initial draft, Nicholas Cross, Joanna Score and Catherine Bryant assisted with revision and approved the final draft.

**6) Contributors Listed in Acknowledgments:**

Funding was provided by Leukaemia and Lymphoma Research, UK.
