

**Manuscript no. 2012/066019 HAEMATOL entitled “A common ancestor more than 10,000 years old for patients with R854Q-related type 2N von Willebrand disease in Italy”**

**Authors: Casonato A, Daidone V, Barbon G, Pontara E, Di Pasquale I, Gallinaro L, Marullo L, Bertorelle G**

**Information about the contributions of each person named as having participated in the study**

- 1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
- Alessandra Casonato, University of Padua Medical School, sandra.casonato@unipd.it
  - Viviana Daidone, University of Padua Medical School, viviana.daidone@unipd.it

According to the International Committee of Medical Journal Editors (ICMJE) ([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)): “Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Alessandra Casonato and Viviana Daidone

3) **Design & Methods.** The following authors were responsible for specific investigations (please detail):

- Alessandra Casonato designed the research
- Viviana Daidone and Giovanni Barbon performed genetic experiments
- Elena Pontara performed analysis of patients' and normals' phenotype
- Irene De Pasquale and Lisa Gallinaro collected the blood samples and performed part of genetic analysis

4) **Results.** The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Viviana Daidone, Giovanni Barbon, Letizia Marullo and Giorgio Bertorelle analyzed the data
- Giovanni Barbon prepared Table 4 and Figures 1 and 3
- Viviana Daidone prepared Tables 1, 2, 3 and Figure 2

5) **Writing the manuscript.** The following authors were responsible for writing the manuscript:

- Alessandra Casonato and Viviana Daidone were responsible for writing the manuscript

6) **Contributors Listed in Acknowledgments:** (Examples of those who might be acknowledged include a person who provided purely technical help, writing assistance, or a department chair who provided only general support. Corresponding authors must declare whether they had assistance with the study design, data collection, data analysis, or manuscript preparation. If such assistance was available, the authors must disclose the identity of the individuals who

provided this assistance and the entity that supported it. Financial and material support should also be acknowledged.)
