

Manuscript no. HAEMATOL/2012/069997 entitled “Murine tissue factor coagulant activity is critically dependent on the presence of an intact allosteric disulfide “

Authors: Lisa G. van den Hengel, Susanne Osanto, Pieter H. Reitsma and Henri H. Versteeg

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Henri H Versteeg, Leiden University Medical Center, h.h.versteeg@lumc.nl

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Henri H Versteeg

3) Design & Methods. The following authors were responsible for specific investigations (please detail):

- Lisa G van den Hengel
- Susanne Osanto
- Pieter H Reitsma
- Henri H Versteeg

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Lisa G van den Hengel was responsible for figures 1A, 1C, 2, 3.
- Henri H Versteeg was responsible for figures 1B, 4.

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Lisa G van den Hengel was responsible for writing the main body of the manuscript.
- Susanne Osanto was responsible for rewriting and adding corrections to the manuscript.
- Pieter H Reitsma was responsible for rewriting and adding corrections to the manuscript.
- Lisa G van den Hengel was responsible for writing parts of the main body of the manuscript.

6) Contributors Listed in Acknowledgments:

This work was supported by the Netherlands Organization for Scientific Research (NWO grant 17.106.329) to H.H.V.
