

Manuscript no. HAEMATOL/2012/071167 entitled “HBB loss of heterozygosity in the haemopoietic lineage gives rise to an unusual sickle-cell trait phenotype“

Authors: Philippe Joly, Caroline Schluth-Bolard, Philippe Lacan, Claire Barro,⁴ Serge Pissard, Audrey Labalme, Damien Sanlaville, and Catherine Badens

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Philippe Joly, philippe.joly@chu-lyon.fr, Unité de Pathologie Moléculaire du Globule Rouge, Fédération de Biochimie et de Biologie Spécialisée, Hôpital Edouard Herriot, Hospices Civils & Université Claude Bernard-Lyon 1, Lyon, France ; ²Centre de Recherche et d’Innovation sur le Sport (EA 647), Université Claude Bernard-Lyon

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Philippe Joly, Catherine Badens, Damien Sanlaville

3) Design & Methods. The following authors were responsible for specific investigations (please detail):

- Philippe Lacan and Philippe Joly were responsible for the synthesis of the FISH probe and the DNA Sanger sequencing.
- Caroline Schluth-Bolard, Audrey Labalme and Damien Sanlaville were responsible for the FISH analysis.
- Claire Barro was the physician hematologist who addressed us the proband and made the clinical and familial investigation.
- Serge Pissard was responsible for the CGH-Array

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Philippe Joly was responsible for figure 1 and the supplemental appendix.
- Damien Sanlaville was responsible for figure 2.

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Philippe Joly and Catherine Badens were responsible for writing the manuscript.

6) Contributors Listed in Acknowledgments:

- Alain Francina for his help in revising the manuscript and in the conception of the study.
- Caroline Garcia for her technical assistance in the Sanger sequencing protocols.
