

Manuscript no. HAEMATOL /2012/063602 entitled “Recent trends in survival of adult patients with acute leukemia: overall improvements, but persistent and partly increasing disparity in survival of minority patients“

Authors: Dianne Pulte, Maria Theresa Redaniel, Lina Jansen, Hermann Brenner, Mona Jeffreys

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Dianne Pulte, German Cancer Research Center and Thomas Jefferson University, dpulte1@yahoo.com

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Dianne Pulte and Maria Theresa Redaniel

3) Design & Methods. The following authors were responsible for specific investigations (please detail):

- Hermann Brenner was responsible for the development of the methods used and oversight of the programming.
- Lina Jansen was responsible for the programming of the data acquisition for period analysis of selected patients.
- Dianne Pulte and Maria Theresa Redaniel were responsible for identification of patients to be included in the analysis.

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Lina Jansen was responsible for generation of tables 1-4.
- All authors were responsible for analysis and interpretation of the data.

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Dianne Pulte was responsible for writing the manuscript.

All authors read the manuscript, provided critical input into revisions, and approved the final manuscript.

6) Contributors Listed in Acknowledgments: No additional contributors.
