

**Manuscript no. HAEMATOL/2012/064014 entitled “Survival of European patients diagnosed with myeloid malignancies: a HAEMACARE study”**

**Authors: Marc Maynadié, Roberta De Angelis, Rafael Marcos-Gragera, Otto Visser, Claudia Allemani, Carmen Tereanu, Riccardo Capocaccia, Adriano Giacomin, Jean-Michel Lutz, Carmen Martos, Risto Sankila, Tom Børge Johannesen, Arianna Simonetti, Milena Sant, and the HAEMACARE Working Group.**

**Information about the contributions of each person named as having participated in the study**

**1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:**

Milena Sant, Descriptive Studies and Health Planning Unit Department of Preventive and Predictive Medicine Fondazione IRCCS Istituto Nazionale dei Tumori Via Venezian 1, 20133, Milan, Italy. milena.sant@stitutotumori.mi.it

According to the International Committee of Medical Journal Editors (ICMJE) ([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)): “Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 ..... Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

**The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.**

**2) Authors who participated in the conception of the study:**

Milena Sant , Riccardo Capocaccia, Roberta De Angelis, Marc Maynadié

**3) Design & Methods. The following authors were responsible for specific investigations:**

- Marc Maynadié, Milena Sant , Rafael Marcos-Gragera, Otto Visser developed the disease grouping
- Roberta De Angelis prepared the data set and was responsible for all statistical analyses
- Claudia Allemani, Carmen Tereanu, Riccardo Capocaccia. contributed to statistical analyses and carried out systematic checks for the quality of data
- Otto Visser, Adriano Giacomin, Jean-Michel Lutz, Carmen Martos, Risto Sankila, Tom Børge Johannesen, Arianna Simonetti gave advice on disease grouping and relevant statistical analyses
- The HAEMACARE Working Group provided the data to be included in the HAEMACARE database; checked the results and commented them

**4) Results. The following authors were responsible for specific portions of the results, including figures and tables:**

- All authors were responsible for the results, which were circulated, discussed and approved by all of them
- Roberta De Angelis and Carmen Tereanu were responsible for all figures
- Carmen Tereanu and Milena Sant were responsible for all Tables

**5) Writing the manuscript. The following authors were responsible for writing the manuscript:**

- Marc Maynadié and Milena Sant wrote large parts of the manuscript
- Roberta De Angelis, Claudia Allemani, Riccardo Capocaccia, Arianna Simonetti contributed to write the parts regarding methods and statistical analysis
- Rafael Marcos-Gragera, Otto Visser, Carmen Tereanu, Adriano Giacomin, Jean-Michel Lutz, Carmen Martos, Risto Sankila, Tom Børge Johannesen contributed to write part of the results and the discussion

**6) Contributors Listed in Acknowledgments:**

- Don Charles Ward edited the text and revised English
- M.C. Béné gave advice and initial language corrections
- M. Goiset provided technical assistance
- Chiara Margutti provided secretarial assistance
