

Manuscript no. HAEMATOL/2012/070201 entitled "CLLU1 expression has prognostic value in CLL after first-line therapy in younger patients and those with mutated IGHV genes"

Authors: David Gonzalez, Monica Else, Dorte Wren, Monica Usai, Anne Mette Buhl, Anton Parker, David Oscier, Gareth Morgan, Daniel Catovsky

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• David Gonzalez, Molecular Diagnostics, The Institute of Cancer Research & Royal Marsden NHS Foundation Trust, davidg@icr.ac.uk

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: David Gonzalez, Monica Else, Daniel Catovsky.

3) Design & Methods. The following authors were responsible for specific investigations (please detail):

- David Gonzalez, Monica Else and Daniel Catovsky were responsible for the design of the study.
- Dorte Wren, Monica Usai, Anne-Mette Buhl, Anton Parker, David Oscier and Gareth Morgan performed research and provided and analysed data.

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- David Gonzalez, Dorte Wren and Monica Usai were responsible for the main results.
- David Gonzalez and Monica Else were responsible for data analysis.
- Anne Mette Buhl, Anton Parker and David Oscier were responsible for other data collection.
- Monica Else was responsible for all figures and tables.

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- David Gonzalez, Monica Else and Daniel Catovsky were responsible for writing the manuscript.
- All authors were responsible for revising and approving the manuscript.

6) Contributors Listed in Acknowledgments: This work was supported by the Leukaemia and Lymphoma Research (LRF CLL4 trial core grant), the National Institute of Health Biomedical Research Centre at the Royal Marsden Hospital and The Institute of Cancer Research. ME was supported by the Arbib Foundation.
