

Manuscript no. HAEMATOL/2012/065607 entitled “Platelet factor 4 induces cell apoptosis by inhibition of STAT3 via upregulation of SOCS3 expression in multiple myeloma“

Authors: Pei Liang, Suk Hang Cheng, Chi Keung Cheng, Kin Mang Lau, Shek Ying Lin, Eudora Y.D. Chow, Natalie P.H. Chan, Rosalina K.L. Ip, Raymond S.M. Wong, and Margaret H. L. Ng

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Margaret HL Ng, Department of Anatomical and Cellular Pathology, The Chinese University of Hong Kong, margaretn@cuhk.edu.hk

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Pei Liang, Suk Hang Cheng, Chi Keung Cheng, Kin Mang Lau, Margaret HL Ng

3) Design & Methods. The following authors were responsible for specific investigations (please detail):

- Pei Liang, Suk Hang Cheng were responsible for cell growth, proliferation, apoptosis, tube formation, and luciferase assays; protein/ DNA array, EMSA, western blotting, real-time PCR, cell transfection, mouse model, and immunohistochemistry.
- Pei Liang, Suk Hang Cheng, Chi Keung Cheng, Kin Mang Lau were responsible for statistical and data analysis
- Shek Ying Lin, Eudora Chow, Raymond Wong were responsible for recruitment of patients
- Natalie Chan, Rosalina Ip, Margaret Ng were responsible for pathological assessment of patients

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Pei Liang, Suk Hang Cheng were responsible for Figures 1-4, supplementary figures S1-6, supplementary table S1
- Natalie Chan, Rosalina Ip, Margaret Ng were responsible for supplementary table S2

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Pei Liang, Suk Hang Cheng, Margaret Ng were responsible for writing abstract, introduction, results, and discussion of the manuscript.
- Pei Liang, Suk Hang Cheng were responsible for writing design and methods of the manuscript

6) Contributors Listed in Acknowledgments: (Examples of those who might be acknowledged include a person who provided purely technical help, writing assistance, or a department chair who provided only general support. Corresponding authors must declare whether they had assistance with the study design, data collection, data analysis, or manuscript preparation. If such assistance was available, the authors must disclose the identity of the individuals who provided this assistance and the entity that supported it. Financial and material support should also be acknowledged.)

This study was fully supported by a grant from the NSFC/RGC Joint Research Scheme sponsored by the Research Grants Council of Hong Kong and the National Science Foundation of China (Project N. N-CUHK 431/07).
