According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html): “Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Jordan Hansford, Rishi Kotecha, Cathy Cole, Gareth Jevon, Nick Gottardo

3) Design & Methods. The following authors were responsible for specific investigations (please detail):

- Jordan Hansford, Rishi Kotecha, Cathy Cole, Nick Gottardo - care and management of patient
- Gareth Jevon - pathology examination and confirmation

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Jordan Hansford and Nick Gottardo prepared figure 1
- Gareth Jevon supplied the pathology images

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Jordan Hansford, Nick Gottardo and Rishi Kotecha drafted the manuscript
- Jordan Hansford, Rishi Kotecha, Catherine Cole, Gareth Jevon and Nick Gottardo all edited the manuscript

6) Contributors Listed in Acknowledgments: Not applicable
