

**Manuscript no. HAEMATOL/2013/084582 entitled “Reply of the authors: DENDRITIC CELL LEUKEMIA”**

**Authors: Livio Pagano, Caterina Giovanna Valentini, and Fabio Facchetti**

**Information about the contributions of each person named as having participated in the study**

**1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole: Livio Pagano; Institute of Hematology, Catholic University, Rome; lpagano@rm.unicatt.it**

According to the International Committee of Medical Journal Editors (ICMJE) ([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)): “Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 ..... Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

**The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.**

**2) Authors who participated in the conception of the study:**

- Livio Pagano, Institute of Hematology, Catholic University, Rome; lpagano@rm.unicatt.it

**3) Design & Methods. The following authors were responsible for specific investigations.**

- Livio Pagano

**4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):**

- Livio Pagano, Caterina Giovanna Valentini, and Fabio Facchetti

**5) Writing the manuscript. The following authors were responsible for writing the manuscript:**

- Livio Pagano, Caterina Giovanna Valentini, Fabio Facchetti,

**6) Contributors Listed in Acknowledgments:**

This work was partially supported by grants from the Italian Ministry for University and Scientific Research (Fondi Ateneo Linea D-1 2011-2012) and by AIRC (Italian Association for Cancer Research).
