

Manuscript no. HAEMATOL/2012/065110 entitled “Diagnosis and treatment of mucormycosis in patients with haematological malignancies: guidelines from the 3rd European Conference on Infections in Leukemia (ECIL 3)”

Authors: Anna Skiada, Fanny Lanternier, Andreas H. Groll, Livio Pagano, Stephan Zimmerli, Raoul Herbrecht, Olivier Lortholary, and George L. Petrikos

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Anna Skiada, University of Athens, Greece, askiada@otenet.gr
- George Petrikos, University of Athens, Greece, petrikos@med.uoa.gr

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html): “Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: All the authors participated in the conception of the study

3) Design & Methods. The following authors were responsible for specific investigations:

- All the authors collaborated and decided together on the design and methods of the study. It was decided that each author would write a part of the manuscript and then Anna Skiada would incorporate all of them in a single draft, which was once again sent to all the authors for further revisions and corrections

4) Results. The following authors were responsible for specific portions of the results, including figures and tables:

- Andreas H. Groll was responsible for the section on posaconazole. He was also responsible for tables 5 and 7
- Livio Pagano was responsible for the section on epidemiology. He was also responsible for Table 2
- Olivier Lortholary and Fanny Lanternier were responsible for the section on diagnosis
- Raoul Herbrecht was responsible for the section on other antifungals and combination treatment
- Stephan Zimmerli was responsible for the section on surgery and adjunctive treatments
- Anna Skiada was responsible for the section on amphotericin B and lipid formulations of amphotericin B. She was also responsible for tables 1 and 6
- Table 6 was revised by L. Pagano
- Tables 3 and 4 were prepared by the collaboration of all the authors

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Anna Skiada was responsible for the section on amphotericin B and lipid formulations of amphotericin B. She was also responsible for preparing the final draft of the manuscript
- Andreas H Groll was responsible for the paragraphs regarding the role of posaconazole in mucormycosis. He also wrote the abstract

- Stephan Zimmerli was responsible for the section on surgery and adjunctive treatments
- Olivier Lortholary and Fanny Lanternier were responsible for the section on diagnosis
- Livio Pagano was responsible for the section on epidemiology. He was also responsible for Table 2
- Raoul Herbrecht was responsible for the section on other antifungals and combination treatment
- George Petrikos revised critically the whole manuscript

6) Contributors Listed in Acknowledgments: The contributors were all members of the ECIL 3 group and they took part in the discussion, panel debate and panel consensus using the evidence criteria set forth by the Infectious Diseases Society of America
