

Manuscript no. HAEMATOL/2012/072553 entitled “Platelet protease-activated receptor (PAR)4, but not PAR1, associated with neutral sphingomyelinase responsible for thrombin-stimulated ceramide-NF- κ B signaling in human platelets”

Authors: Wei-Fan Chen, Jie-Jen Lee, Chaou-Chien Chang, Kuan-Hong Lin, Shwu-Huey Wang, and Joen Rong Sheu

Information about the contributions of each person named as having participated in the study

(1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Joen-Rong Sheu, Graduate Institute of Medical Sciences and Department of Pharmacology, School of Medicine, Taipei Medical University, sheujr@tmu.edu.tw

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Dr. Joen-Rong Sheu

3) Design & Methods. The following authors were responsible for specific investigations:

- Dr. Wei-Fan Chen was responsible in performing the research work and analyzing the data
- Dr. Jie-Jen Lee, and Dr. Chaou-Chien Chang were responsible to design and perform the in vivo study and analyzing the data
- Dr. Shwu-Huey Wang was responsible to design the study and performing the LC-MS/MS analysis
- Dr. Joen-Rong Sheu was responsible to design the study

4) Results. The following authors were responsible for specific portions of the results, including figures and tables:

- Dr. Wei-Fan Chen was fully responsible to perform the statistical analysis of the study and drawing the figures and tables

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Dr. Wei-Fan Chen and Dr. Joen-Rong Sheu were responsible for writing the manuscript
- Dr. Jie-Jen Lee, and Dr. Chaou-Chien Chang were assisted in writing the manuscript
- Dr. Shwu-Huey Wang was assisted in writing the manuscript

6) Contributors Listed in Acknowledgments:

- Dr. Joen-Rong Sheu and Dr. Shwu-Huey Wang (corresponding authors) declared that we had no assistance to design the study, data collection, data analysis, or manuscript preparation other than the listed authors in the manuscript.

- The authors acknowledge the National Science Council of Taiwan (NSC97-2320-B-038-016-MY3 and NSC100-2320-B-038-021-MY3) and Cathay General Hospital-Taipei Medical University (100-CGH-TMU-12 and 101-CGH-TMU-08) for the financial assistance provided
