

**Manuscript no. HAEMATOL/2012/076042 entitled “Different effects of HLA disparity on transplant outcomes after single-unit cord blood transplantation between pediatric and adult patients with leukemia”**

**Authors: Yoshiko Atsuta, Junya Kanda, Minoko Takanashi, Yasuo Morishima, Shuichi Taniguchi, Satoshi Takahashi, Hiroyasu Ogawa, Kazuteru Ohashi, Yuju Ohno, Yasushi Onishi, Nobuyuki Aotsuka, Tokiko Nagamura-Inoue, Koji Kato, and Yoshinobu Kanda**

**Information about the contributions of each person named as having participated in the study**

**1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:**

- Yoshiko Atsuta, Department of Hematopoietic Stem Cell Transplantation Data Management / Biostatistics, Nagoya University Graduate School of Medicine, y-atsuta@med.nagoya-u.ac.jp
- Yoshinobu Kanda, Division of Hematology, Saitama Medical Center, Jichi Medical University, ycanda-ty@umin.ac.jp

According to the International Committee of Medical Journal Editors (ICMJE) ([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)): “Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 ..... Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

**2) Authors who participated in the conception of the study:** Yoshiko Atsuta, Junya Kanda, Minoko Takanashi, Yasuo Morishima, and Yoshinobu Kanda

**3) Design & Methods. The following authors were responsible for specific investigations:**

- Yoshiko Atsuta, Junya Kanda, and Yoshinobu Kanda were responsible for the design, definitions of variables and method of analyses
- Minoko Takanashi and Yasuo Morishima were responsible for the design and definitions of variables
- Shuichi Taniguchi, Satoshi Takahashi, Hiroyasu Ogawa, Kazuteru Ohashi, Yuju Ohno, Yasushi Onishi, and Nobuyuki Aotsuka were responsible for data acquisition and organization the dataset for analyses
- Tokiko Nagamura-Inoue and Koji Kato were responsible for data review and organization of data for analyses

**4) Results. The following authors were responsible for specific portions of the results, including figures and tables:**

- Yoshiko Atsuta was responsible for statistical analyses and making all tables and figures
- Junya Kanda and Yoshinobu Kanda were responsible for confirmation analyses and interpretation of results
- Minoko Takanashi, Yasuo Morishima and Satoshi Takahashi were responsible for interpretation of results

**5) Writing the manuscript. The following authors were responsible for writing the manuscript:**

- Yoshiko Atsuta, Junya Kanda, Minoko Takanashi, Yasuo Morishima, and Yoshinobu Kanda were responsible for drafting and revising the whole manuscript

- Shuichi Taniguchi, Satoshi Takahashi, Hiroyasu Ogawa, Kazuteru Ohashi, Yuju Ohno, Yasushi Onishi, Nobuyuki Aotsuka, Tokiko Nagamura-Inoue and Koji Kato were responsible for revising the manuscript critically and contributed especially to the discussion section

**6) Contributors Listed in Acknowledgments:**

This work was supported by a Research Grant for Allergic Disease and Immunology (H23-013), and a Research Grant for Cancer (H23-010) from the Japanese Ministry of Health, Labor, and Welfare.
