

Manuscript no. HAEMATOL/2012/076786 entitled "TP53 mutations are frequent in adult acute lymphoblastic leukemia cases negative for recurrent fusion genes and correlate with poor response to induction therapy"

Authors: Sabina Chiaretti, Fulvia Brugnoletti, Simona Tavolaro, Silvia Bonina, Francesca Paoloni, Marilisa Marinelli, Nancy Patten, Massimiliano Bonifacio, Maria Grazia Kropp, Simona Sica, Anna Guarini, Robin Foà

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

-Sabina Chiaretti, Division of Hematology, Department of Cellular Biotechnologies and Hematology, "Sapienza" University of Rome, chiaretti@bce.uniroma1.it

-Robin Foà, Division of Hematology, Department of Cellular Biotechnologies and Hematology, "Sapienza" University of Rome, rfoa@bce.uniroma1.it

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study:

-Sabina Chiaretti, Division of Hematology, Department of Cellular Biotechnologies and Hematology, "Sapienza" University of Rome, chiaretti@bce.uniroma1.it

-Anna Guarini, Division of Hematology, Department of Cellular Biotechnologies and Hematology, "Sapienza" University of Rome, guarini@bce.uniroma1.it

-Robin Foà Division of Hematology, Department of Cellular Biotechnologies and Hematology, "Sapienza" University of Rome, rfoa@bce.uniroma1.it

3) Design & Methods. The following authors were responsible for specific investigations:

-Fulvia Brugnoletti performed the TP53 array experiments

-Simona Tavolaro performed the TP53 array experiments

-Silvia Bonina performed the TP53 array experiments

-Francesca Paoloni performed statistical analysis

-Marilisa Marinelli performed Sanger sequencing

-Nancy Patten provided indispensable reagents and technical support

-Massimiliano Bonifacio provided clinical samples and data

-Maria Grazia Kropp provided clinical samples and data

-Simona Sica provided clinical samples and data

4) Results. The following authors were responsible for specific portions of the results, including figures and tables:

-Sabina Chiaretti was responsible for Figure1

-Fulvia Brugnoletti was responsible for Figure1

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

-Sabina Chiaretti was responsible for writing and revising the manuscript

- Fulvia Brugnoletti was responsible for writing the manuscript
- Anna Guarini was responsible for revising the manuscript
- Robin Foà was responsible for revising the manuscript

6) Contributors Listed in Acknowledgments:

Not applicable
