

Manuscript no. HAEMATOL/2012/078055 entitled “Multipotent stromal cells skew monocytes towards an anti-inflammatory IL-10 producing phenotype by production of IL-6“

Authors: Sara Marie Melief, Sacha Brigitte Geutskens, Willem Fibbe, and Helene Roelofs

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole: • HR, IHB, LUMC, H.Roelofs@lumc.nl

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study:

SMM, IHB, LUMC, S.M.Melief@lumc.nl

SBG, IHB, LUMC, S.B.Geutskens@lumc.nl

WEF, IHB, LUMC, W.E.Fibbe@lumc.nl

HR, IHB, LUMC, H.Roelofs@lumc.nl

3) Design & Methods. The following authors were responsible for specific investigations:

- SMM was responsible for design and performance of all experiments
- SBG was responsible for design and improvement of a substantial portion of the experiments
- HR was responsible for design of the experiments

4) Results. The following authors were responsible for specific portions of the results, including figures and tables:

- SMM was responsible for acquisition of all study results, including all figures and tables
- SMM, SBG, WEF, HR were responsible for analysis and interpretation of the results

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- SMM, WEF, HR were responsible for writing the manuscript
- SMM, SBG, WEF, HR were responsible for critical manuscript review and approval of the final version

6) Contributors Listed in Acknowledgments: N/A
