

Manuscript no. HAEMATOL/2012/070268 entitled “Dasatinib targets chronic myeloid leukemia-CD34+ progenitors as effectively as it targets mature cells”

Authors: Devendra Keshaorao Hiwase, Verity A. Saunders, Eva Nievergall, Douglas D. Ross, Deborah L. White, and Timothy P. Hughes

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Devendra Hiwase, Consultant Haematologist, devendra.hiwase@health.sa.gov.au
- Timothy Hughes, Professor and Consultant Haematologist, devendra.hiwase@health.sa.gov.au

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Devendra Hiwase, Douglas Ross, Deborah White and Timothy Hughes

3) Design & Methods. The following authors were responsible for specific investigations:

- Devendra Hiwase was responsible for performing experiments such as mononuclear cell isolation, CD34⁺ cell selection, Flow cytometry, IUR, Rhodamine-123 and Pheobarbide fluorescence assay and Western blot for -Crkl
- Verity Saunders was responsible for performing experiments such as mononuclear cell isolation, IUR and Western blot for -Crkl
- Eva Nievergall was responsible for performing experiments such as mononuclear cell isolation, CD34⁺ cell selection, Flow cytometry, Rhodamine-123 and Pheobarbide fluorescence assay

4) Results. The following authors were responsible for specific portions of the results, including figures and tables:

- Devendra Hiwase was responsible for Figure 1A-C, 2C-D, S1 and S2
- Verity Saunders was responsible for Figure 2B, E-F
- Eva Nievergall was responsible for Fig 1D-E, Fig 2A-B, S1 and S2

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Devendra Hiwase wrote the manuscript
- Verity Saunders edited the manuscript
- Eve Nievergall edited the MS
- Douglas Ross edited the MS
- Deborah White edited the MS
- Timothy Hughes edited the MS

6) Contributors Listed in Acknowledgments: Not applicable
