

Manuscript no. HAEMATOL/2013/085043 entitled “A low fixed dose of prothrombin complex concentrate is cost effective in emergency reversal of vitamin K antagonists“

Authors: Nakisa Khorsand, Lisette Giepmans, Karina Meijer, Reinier M. van Hest, and Nic J.G.M. Veeger

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Nakisa Khorsand, Department of Hospital Pharmacy, Central Hospital Pharmacy, The Hague, The Netherland, n.khorsand@ahz.nl
- Nic Veeger, Department of Epidemiology, University Medical Centre Groningen, University of Groningen, The Netherlands, n.veeger@umcg.nl

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html): “Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study:

Nakisa Khorsand, Lisette Giepmans, Karina Meijer, Reinier M. van Hest, and Nic J.G.M. Veeger

3) Design & Methods. The following authors were responsible for specific investigations:

- Nakisa Khorsand was responsible for collecting the data
- Lisette Giepmans and Nakisa Khorsand were responsible for modeling the decision trees
- Lisette Giepmans was responsible for Monte Carlo simulations and sensitivity analyses
- All authors were responsible for suggesting important directions from both a clinical and costing point of view

4) Results. The following authors were responsible for specific portions of the results, including figures and tables:

- All authors are responsible for the development of table 1 and figure 1

5) Writing the manuscript:

- Nakisa Khorsand was responsible for writing the manuscript
- All authors were responsible for critically reviewing, revising and editing the manuscript

6) Contributors Listed in Acknowledgments:

Acknowledgments: the authors would like to thank Silvia Gerritsen-Heemskerk (financial advisor, Haga Teaching Hospital, The Hague, The Netherlands) for her intellectual input and advice concerning Dutch medical costs.

Funding: an unrestricted grant for this study was provided by Sanquin BV (Amsterdam, The Netherlands). Sanquin had no involvement in the design of the study, the collection, analysis or interpretation of data, in the writing of the report, or in the decision to submit the paper for publication.
