Title	A reversion of an <i>IL2RG</i> mutation in combined immunodeficiency providing competitive advantage to the majority of CD8+ T cells
First author	T.W. Kuijpers

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html):

“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The responsible author(s) of this manuscript confirm(s) that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Specific contributions of each author are listed on page 2 of this document.

Responsible author(s):

author(s) responsible for the integrity of the work as a whole

Name: T.W. Kuijpers
Institute: Academic Medical Center, Amsterdam
e-mail: t.w.kuijpers@amc.nl

Name: M. van der Burg
Institute: Erasmus Medical Center, Rotterdam
