<b>Title</b>	ATM mutations uniformly lead to ATM dysfunction in chronic lymphocytic leukemia: Application of functional test using doxorubicin
<b>First author</b>	Veronika Navrkalova

According to the International Committee of Medical Journal Editors (ICMJE) ([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)):

*“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.*

**The responsible author(s) of this manuscript confirm(s) that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.**

*Specific contributions of each author are listed on page 2 of this document.*

### **Responsible author(s):**

*author(s) responsible for the integrity of the work as a whole*
