Title	<i>HOXA/PBX3 Knockdown Impairs Growth and Sensitizes Cytogenetically Normal Acute Myeloid Leukemia Cells to Chemotherapy.</i>
First author	<i>Glenda Joanne Dickson PhD</i>

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html):

“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The responsible author(s) of this manuscript confirm(s) that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Specific contributions of each author are listed on page 2 of this document.

Responsible author(s):

author(s) responsible for the integrity of the work as a whole

Name: Alexander Thompson

Author contributions (maximum 1 page):

Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, collection of images, interpretation of data, preparation of the text, etc.)

Glenda J Dickson initiated, designed and performed experiments, analyzed and interpreted data, wrote, edited and reviewed the manuscript prior to submission.

Fabio G Liberante generated, analyzed and interpreted data, wrote, edited and reviewed the manuscript prior to submission.

Laura M Kettle performed experiments and reviewed and edited the manuscript prior to submission.

Kathleen A O'Hagan generated and analyzed microarray data and reviewed and edited the manuscript prior to submission.

Damian P J Finnegan recruited patients and reviewed and edited the manuscript prior to submission.

Lars Bullinger generated and analyzed microarray data and reviewed and edited the manuscript prior to submission.

Dirk Geerts supplied validated shRNA constructs and reviewed and edited the manuscript prior to submission.

Mary Frances McMullin recruited patients and reviewed and edited the manuscript prior to submission.

Terry R J Lappin wrote and edited the manuscript and reviewed and edited the manuscript prior to submission.

Ken I Mills generated, analyzed and interpreted data, wrote, edited and reviewed the manuscript prior to submission.

Alexander Thompson initiated, designed and performed experiments, analyzed and interpreted data, wrote, edited and reviewed the manuscript prior to submission.
