Title	Clonal Analysis of Multipotent Stromal Cells Derived from CD271 <sup>+</sup> Bone Marrow Mononuclear Cells: Functional Heterogeneity and Different Mechanisms of Allosuppression
First author	Zyrafete Kuçi

According to the International Committee of Medical Journal Editors (ICMJE) (<a href="http://www.icmje.org/ethical-1author.html">http://www.icmje.org/ethical-1author.html</a>):

"Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The responsible author(s) of this manuscript confirm(s) that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Specific contributions of each author are listed on page 2 of this document.

## Responsible author(s):

author(s) responsible for the integrity of the work as a whole

Name: Zyrafete Kuçi, M.D., Ph.D.

Institute: University Children's Hospital, Dep. of Hematology/Oncology, Frankfurt,

Germany

## **Author contributions (maximum 1 page):**

Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, collection of images, interpretation of data, preparation of the text, etc.)

- 1. Zyrafete Kuçi, designed and performed research, analyzed data and wrote the paper
- 2. Julia Seiberth, performed research and analyzed data
- 3. Hatixhe Latifi-Pupovci, performed research and analyzed data
- 4. Sibylle Wehner, provided reagents and analyzed data
- 5. Stefan Stein, provided reagents and performed research
- 6. Manuel Grez, provided reagents and analyzed data
- 7. Halvard Bönig, provided reagents, analyzed and discussed data
- 8. Ulrike Köhl, analyzed and discussed data
- 9. Thomas Klingebiel, analyzed and discussed data and assisted with the preparation of the manuscript
- 10. Peter Bader, , analyzed and discussed data and assisted with the preparation of the manuscript
- 11. Selim Kuçi, designed and performed research, analyzed data and wrote the paper
