Title	Combined antifungal approach for the treatment of invasive mucormycosis in patients with hematological diseases: a report from the SEIFEM and FUNGISCOPE registries (HAEMATOL2012083063)
First author	<i>Livio Pagano</i>

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html):

“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The responsible author(s) of this manuscript confirm(s) that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Specific contributions of each author are listed on page 2 of this document.

Responsible author(s):

Author contributions (maximum 1 page):

Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, collection of images, interpretation of data, preparation of the text, etc.)

Livio Pagano, Oliver Cornely, Alessandro Busca and Maria Veherschild designed research questions and study design, enrolled patients, analyzed data and wrote the manuscript. Morena Caira and Caterina Giovanna Valentini assisted with patient enrollment, database creation and with statistical analysis.

All the authors (Simone Cesaro, Cristiana Gasbarrino, Corrado Girmenia, Werner J Heinz, Raoul Herbrecht, Cornelia Lass-Flörl, Annamaria Nosari, Leonardo Potenza, Zdeneck Racil, Volker Rickerts, Donald C Sheppard, Arne Simon, Andrew J Ullmann, Jorg Janne Vehreschild, Anna Candoni) participated to the patient enrollment, data interpretation and critical review of the manuscript
