Title	Dissecting the Grey Zone between Follicular Lymphoma and Marginal Zone Lymphoma using Morphological and Genetic Features
First author	Oscar Krijgsman

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html):

“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The responsible author(s) of this manuscript confirm(s) that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Specific contributions of each author are listed on page 2 of this document.

Responsible author(s):

author(s) responsible for the integrity of the work as a whole

Name: Dr. Daphne de Jong.....

Author contributions (maximum 1 page):

Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, collection of images, interpretation of data, preparation of the text, etc.)

DJ and OBP designed the project. OK, DJ and BY analyzed and interpreted the data and wrote the manuscript. KG and FB provided selected cases and were involved in the pathology review together with DJ and OBP. MB and SS retrieved all clinical information. PG, MR, AB, LB and RK performed all experiments and data preprocessing.
