author contribution form

Title	<i>Serum hepcidin following autologous hematopoietic cell transplantation : an illustration of the interplay of iron status, erythropoiesis and inflammation</i>
First author	<i>Aurélie Jaspers</i>

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html):

“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The responsible author(s) of this manuscript confirm(s) that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Specific contributions of each author are listed on page 2 of this document.

Responsible author(s):

author(s) responsible for the integrity of the work as a whole

Author contributions (maximum 1 page):

*Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript
(collection of data, experiments, data analysis, generation of figures, collection of images, interpretation of data, preparation of the text, etc.)*

AJ : collection of data, data analysis and interpretation, generation of figures, manuscript writing

FB : conception and design of study, collection of data and interpretation

EW : patient care, collection of data and interpretation

LS : data analysis and interpretation

ETW : hepcidin measurement

DWS : hepcidin measurement

YB : conception and design of study, data interpretation, manuscript writing
