<b>Title</b>	Phase II trial of sequential ribonucleotide reductase inhibition in aggressive myeloproliferative neoplasms
<b>First author</b>	Joshua F. Zeidner

According to the International Committee of Medical Journal Editors (ICMJE)

([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)):

*“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.*

**The responsible author(s) of this manuscript confirm(s) that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.**

*Specific contributions of each author are listed on page 2 of this document.*

### **Responsible author(s):**

*author(s) responsible for the integrity of the work as a whole*

**Author contributions (maximum 1 page):**

*Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, collection of images, interpretation of data, preparation of the text, etc.)*

Joshua F. Zeidner- performed research, data analysis, preparation of the text, and takes primary responsibility of the manuscript

Judith E. Karp- participated in protocol design, performed research, collection of data, data analysis, and takes primary responsibility of the manuscript

Amanda L. Blackford- statistical analysis, interpretation of data

B. Douglas Smith- participated in protocol design, performed research, collection of data, data analysis

Ivana Gojo- participated in protocol design, performed research, collection of data, data analysis

Steven D. Gore- participated in protocol design, performed research, collection of data, data analysis

Mark J. Levis- participated in protocol design, performed research, collection of data, data analysis

Hetty E. Carraway- participated in protocol design, performed research, collection of data, data analysis

Jacqueline M. Greer- served as the research coordinator, collected data, and assisted with data analysis

S. Percy Ivy- participated in protocol design and performed research

Keith W. Pratz- participated in protocol design, performed research, collection of data, data analysis

Michael A. McDevitt- participated in protocol design, performed research, collection of data, data analysis, and takes primary responsibility of the manuscript.

All authors assisted with drafting the manuscript and/or critical revision of the manuscript and approved the final manuscript submitted.
