Title	USE OF THE QUALITY MANAGEMENT SYSTEM “JACIE” AND OUTCOME AFTER HAEMATOPOIETIC STEM CELL TRANS-PLANTATION
First author	<i>Alois Gratwohl</i>

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html):

“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The responsible author(s) of this manuscript confirm(s) that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Specific contributions of each author are listed on page 2 of this document.

Responsible author(s):

author(s) responsible for the integrity of the work as a whole

Name: Alois Gratwohl
Institute: Hematology, Medical Faculty, University of Basel

Author contributions (maximum 1 page):

Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, collection of images, interpretation of data, preparation of the text, etc.)

Alois Gratwohl designed the study concept, together with RB, CC and JA. He was responsible for the whole process, the design of the analysis and the interpretation of the data; had access to all data and wrote the manuscript together with RB and the help of all coauthors.

Ronald Brand designed the study concept, together with AG, CC and JA. He was responsible for the data analysis. He had access to all data and wrote the manuscript together with AG and the help of all coauthors.

Christian Chabannon designed the study concept, together with AG, RB and JA. He had access to all data and contributed significantly to the writing of the manuscript.

Jane Apperley designed the study concept, together with AG, RB and CC. She had access to all data and contributed significantly to the writing of the manuscript.

Eoin McGrath, together with HB and AvB, was responsible for the integrity of the data, including data collection, the quality control, and the organization of the data set. He has controlled the final manuscript and approved of it.

Helen Baldomero, together with EMcG and AvB, was responsible for the integrity of the data, including data collection, the quality control, and the organization of the data set. She has controlled the final manuscript and approved of it.

Anja van Biezen, together with EMcG and HB, was responsible for the integrity of the data, including data collection, the quality control, and the organization of the data set. He has controlled the final manuscript and approved of it.

Anna Sureda was responsible for the interaction and collaboration between the two organizations, EBMT and JACIE, the data exchange process and the correct allocation of the teams to the respective groups, JACIEpos or JACIE neg. She contributed significantly to the writing of the manuscript and approved of it.

Per Ljungman was the critical mind. He controlled all steps of the analysis, contributed significantly to the writing of the manuscript and approved of it.
