AUTHOR CONTRIBUTION FORM

Title	<i>Clinical diagnosis and typing of systemic amyloidosis in subcutaneous fat aspirates by mass spectrometry-based proteomics</i>
First author	<i>Ahmet Dogan</i>

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html):

“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The responsible author of this manuscript confirms that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Responsible author (<i>author responsible for the integrity of the work as a whole</i>)
Name: Ahmet Dogan
Institute: Memorial Sloan Kettering Cancer Center
e-mail: dogana@mskcc.org

Author contributions

Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, interpretation of data, preparation of the text, etc.) :

JAV and JDT designed and validated the protocols and processes and contributed to the manuscript preparation; SD and OMM provided data analysis and contributed manuscript preparation; AnD, SRZ, MAG, PJK, KLG, and AhD were involved in test design and implementation, patient results, and manuscript preparation.
The authors have no conflicts of interest to disclose.
