<b>Title</b>	Recognition of adult and pediatric acute lymphoblastic leukemia blasts by natural killer cells
<b>First author</b>	Giovanni Fernando Torelli

According to the International Committee of Medical Journal Editors (ICMJE)

([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)):

*“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.*

**The responsible author(s) of this manuscript confirm(s) that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.**

*Specific contributions of each author are listed on page 2 of this document.*

### **Responsible author(s):**

*author(s) responsible for the integrity of the work as a whole*

**Author contributions (maximum 1 page):**

*Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, collection of images, interpretation of data, preparation of the text, etc.)*

Giovanni Fernando Torelli designed the study, analyzed the data, generated the figures and wrote the manuscript.

Nadia Peragine performed functional experiments and data analysis and generated the figures.

Sara Raponi and Maria Stefania De Propris performed cytofluorimetric analysis.

Daria Pagliara, Antonella Vitale, Alice Bertaina, Walter Barberi, Giuseppe Basso and Franco Locatelli provided study samples.

Angela Santoni and Franco Locatelli helped in the design of the study and edited the manuscript.

Lorenzo Moretta edited the manuscript.

Anna Guarini helped in the design of the study, coordinated the experimental work, discussed the results and edited the manuscript.

Robin Foà designed the study, interpreted results, wrote and edited the manuscript.
