AUTHOR CONTRIBUTION FORM

Title	Molecular response assessment by quantitative RT-PCR after induction therapy in NPM1 mutated patients identifies patients at high risk for relapse
First author	Max Hubmann

According to the International Committee of Medical Journal Editors (ICMJE)
(http://www.icmje.org/ethical_1author.html):

“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The responsible author of this manuscript confirms that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Responsible author (<i>author responsible for the integrity of the work as a whole</i>)
Name: Max Hubmann
Institute: Department of Medicine III, University Hospital Grosshadern, Munich, Germany
e-mail: max.hubmann@med.uni-muenchen.de

Author contributions

Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, interpretation of data, preparation of the text, etc.):

MH, KS, MS, MF, WH designed the study; EZ, SS, AD, SKB performed molecular genetic analysis; MH, KS, EH, TK analyzed data and compiled statistics; MH, TK, MCS collected and documented clinical data; MCS, JB, WEB, TB, BW, and WH coordinated the AMLCG trials; KS, WH supervised the project; MH and KS wrote the manuscript.
