AUTHOR CONTRIBUTION FORM

Title	IGH@ translocations co-exist with other primary rearrangements in B-cell precursor acute lymphoblastic leukaemia
First author	Sally Jeffries

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html):

“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The responsible author of this manuscript confirms that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Responsible author (*author responsible for the integrity of the work as a whole*)

Name: Lisa Russell

Institute: Newcastle University

e-mail: lisa.russell@ncl.ac.uk

Author contributions

Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, interpretation of data, preparation of the text, etc.) :

Lisa Russell and Sally Jefferies designed and interpreted the data and wrote the manuscript. Lisa Russell and Lisa Jones were responsible for designing, undertaking and analysing the multiple colour FISH. Sally Jefferies carried out the in depth cytogenetic and single probe FISH analysis of patient 24390. Christine Harrison provided intellectual input and critically reviewed the paper. All authors reviewed the final manuscript.
