## AUTHOR CONTRIBUTION FORM

<b>Title</b>	<b>Early lymphoid lesions: conceptual, diagnostic and clinical challenges</b>
<b>First author</b>	Karthik Ganapathi

According to the International Committee of Medical Journal Editors (ICMJE)

([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)):

*“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.*

**The responsible author of this manuscript confirms that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.**

### **Author contributions**

*Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, interpretation of data, preparation of the text, etc.) :*

The organization and conceptual approach to the review was conceived by E Jaffe. K. Ganapathi and E. Jaffe were primarily responsible for drafting the manuscript text, with the clinical recommendations formulated and written by O. Odejide and A Freedman. The figures were prepared by K. Ganapathi and E Jaffe. All authors read and edited the manuscript at various points during its development, including approval of the final draft.
