AUTHOR CONTRIBUTION FORM

Title	In vivo effects of horse and rabbit antithymocyte globulin in patients with severe aplastic anemia
First author	Xingmin Feng

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html):

“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The responsible author of this manuscript confirms that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Responsible author (<i>author responsible for the integrity of the work as a whole</i>)
Name: Xingmin Feng
Institute: National Institutes of Health
e-mail: fengx2@nhlbi.nih.gov

Author contributions

Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, interpretation of data, preparation of the text, etc.):

X. Feng designed the research, performed experiments, analyzed data and wrote the manuscript. P. Scheinberg designed the research, analyzed data and wrote the manuscript. A. Biancotto and J.P. McCoy performed the Luminex and flow cytometry experiments and analyzed data. O. Rios and D.M. Townsley were involved in the handling and collection of samples and provided clinical data. S. Donaldson and K. Sato performed experiments. C. Wu and H. Zheng did statistical analysis. N.S. Young was involved in primary conception, interim discussions, data analysis, and manuscript preparation.
