AUTHOR CONTRIBUTION FORM

Title	Hematological parameters predicting a response to oral iron therapy in chronic inflammation
First author	S. van Santen

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html):

“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The responsible author of this manuscript confirms that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Responsible author (<i>author responsible for the integrity of the work as a whole</i>)
Name: Prof. A.J.A.M. van der Ven
Institute: Radboud university medical center, Nijmegen, the Netherlands
e-mail: andre.vanderven@radboudumc.nl

Author contributions

Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, interpretation of data, preparation of the text, etc.) :

substantial contributions for each author:

SS: *conception and design of study, acquisition of data, analysis and interpretation of data, drafting the article, approval of the final version to be published*

QM: *conception and design of study, acquisition of data, analysis and interpretation of data, drafting the article and approval of the final version to be published*

JO: *conception and design of study, revising the article critically for important intellectual content and approval of the final version to be published*

AE: *conception and design of study, revising the article critically for important intellectual content and approval of the final version to be published*

DS: *conception and design of study, revising the article critically for important intellectual content and approval of the final version to be published*

AV: *conception and design of study, acquisition of data, analysis and interpretation of data, drafting the article and approval of the final version to be published*
