AUTHOR CONTRIBUTION FORM

Title	Hypersensitivity reactions to intravenous iron: guidance for risk minimisation and management.
First author	David Rampton

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html):

“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The responsible author of this manuscript confirms that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Responsible author (<i>author responsible for the integrity of the work as a whole</i>)
Name: David Rampton
Institute: Barts and the London School of Medicine and Dentistry, London
e-mail: d.rampton@qmul.ac.uk

Author contributions

Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, interpretation of data, preparation of the text, etc.) :

Prof Rampton conceived the report and drafted the manuscript; Dr Folkersen undertook the systematic literature review; all the authors participated in the iterative literature review and guidance development, and contributed to the planning, revision and final approval of the manuscript.
